**CAUSE OF CANCER & pH**

Herman Aihara, in his book entitled “Acid & Alkaline”, states that:

If the condition of our extra cellular fluids, especially the blood, becomes acidic, our physical condition will first manifest tiredness, proneness to catching colds, etc. When these fluids become more acidic, our condition then manifests pains and suffering such as headaches, chest pains, stomach aches, etc. According to Keiichi Morishita in his Hidden Truth of Cancer, If the Blood develops a more acidic condition, then our body inevitably deposits these excess acidic substances in some area of the body such so that the blood will not be able to maintain an alkaline condition which causes these areas such as the cells to become acidic and lowers in oxygen.

As this tendency continues, such areas increase in acidity and some cells die; then these dead cells themselves turn into acids. However, some other cells may adapt in that environment. In other words, instead of dying - as normal cells do in an acid environment - some cells survive by becoming abnormal cells. These abnormal cells are called malignant cells. Malignant cells do not correspond with brain function nor with our own DNS memory code. Therefore, malignant cells grow indefinitely and without order. This is cancer.

**THE PH/DIGESTION/ELIMINATION AXIS ©1997**

by Jim LeBeau Perfect Health Foundation

The pH/digestion/elimination axis is so basic to human health that many highly educated “experts” in nutrition pass it right by as they endlessly complicate and confuse things. Read the following carefully, taken from page 496 of ANATOMY AND PHYSIOLOGY by Anthony and Thibodeau, 10<sup>th</sup> edition (a college level text) ¼

“enzymes FUNCTION OPTIMALLY AT A SPECIFIC pH  
and become inactive if this deviates beyond narrow

If you understand  
congratulations. Y  
RIGHT . . . thank  
already far ahead  
health and nutritio  
foundation of hum  
is all about. Cong

BEYOND YOUR

limits”.

- “enzymes are vital substances. Without them, the chemical reactions necessary for life could not take place”.

#### IN OTHER WORDS . . .

- without enzymes we could not live. We could not digest anything, or metabolize anything, or even breathe right. We would die with minutes.

- without the right pH balance in saliva the enzyme amylase that begins the digestion of starch . . . the enzyme that turns that bite of bread sweeter and sweeter as you chew it . . . cannot work right . . .

- without the right pH balance of stomach juices (acid) the protein you just swallowed will not get properly broken down and your stomach enzymes will not work right either<sup>1/4</sup>

- without the right pH balance of bile and pancreatic juices (alkaline) where enzymes complete the digestion of fats, carbohydrates, and proteins, not one of the millions of workhorse enzymes in those digestive juices can work right either. . .

- all of the above means that all of the best and most nutritious food in the world and the most expensive vitamin pills and supplements won't get digested and assimilated right if your body pH is off balance is off

system (ANS) that body “automatical your heartbeat wh . . . or sleep. Guess balance, it can't w

ACIDITY AND S DOMINANCE OF DIVISION OF TH “REST AND DIG DOMINANCE OF DIVISION OF TH

In other words . . . you have a sick ar command is sick t win a battle that w

BEYOND DIGES . . . are metabolic enzymes help us b produce heat and c alive . . . but they fluids they swim i intracellular fluids

BEYOND ALL O The pH of your bc electricity travels. electricity in your speed!

balance . . . and it also means that YOU cannot work right either.

GARBAGE STAY IN . . . all of the above also means that the failure to properly complete digestion gives the BAD GUYS down below . . . the yeast and pathogenic poison producing bacteria and parasites that love garbage piles . . . everything they need to thrive and reproduce and dump their poisons into your bloodstream 24 hours a day . . . non-stop. While you and your enzymes are not working right, they will do fine . . . thank you.

12 SECOND HEALTH TEST . . . now you know why the “12 second health test” (saliva pH test) has been called the most important health test on earth. It signals whether you have enough alkaline and acid reserves to create a perfect saliva pH for the enzyme amylase to work right . . . this also signals that the digestive glands of the stomach and pancreas and liver are also likely to have the right pH reserves to draw on. After all, they are all drawing from the same body and blood reserves!

Of course a little p  
a while anyway. I  
body can work rig  
. . then you die.
